

## PRESS RELEASE

### EPF launches a self-commitment on MDF and Plywood Recyclability

---

Brussels, 27 June 2024

EPF is proud of its members' use of recovered and recycled wood. This is part of EPF's sustainability approach, which sees cascade use and recycling as a key contribution to resource efficiency and circular economy. This is central to wood-based panels as a role model industry.

EPF members endorsed the launch of a self-commitment on the occasion of its Annual General Assembly in Riga on 19-21 June, 2024. This reaffirms EPF member companies' willingness to accept MDF and plywood at their wood waste management centres or within their plants.

This demonstrates EPF members' dedication to sustainable practices, environmental responsibility and underlines that MDF and plywood are recyclable.

For further information on any of the above, please contact EPF Administration and Communications Officer Mrs Isabelle Henin: [info@europanels.org](mailto:info@europanels.org) (+32 2 556 25 89).

*About EPF - the European Panel Federation has members in 30 European countries and represents the manufacturers of particleboard, MDF, OSB, hardboard, softboard and plywood. The EU wood-based panels industry has an annual turnover of about 25 billion euro and creates over 100,000 jobs directly.*
